The BigPic project

"The Bigger Picture Tools" project is about capacity building in organizations providing learning opportunities to adults. It builds on The Bigger Picture (2022-2-BG01-KA210-ADU-0091960), a KA2 project formulating a global competence framework for adults and adult educators and global training courses for educators.

PROJECT RESULTS

Result 1: BigPic MOOC (Massive Open Online Course)
Result 2: BigPic ToolKit
Result 3: BigPic Guide

The BigPic MOOC is here

The first result of the Bigger Pictures Tools project has been developed and it is ready to be tested. The partnership has created an online course, accomodated by an e-learning platfom. The content is presented in several forms such as videos, presentations, best paractices, games and assessment tools, in order to create a more interactive and engaging course.

The course takes into consideration all of the important aspects and needs of educating adult learners on Global Citizenship and it's aimed at diminishing some terminology confusion by providing a concise and integrative content. Thus, supporting educators to acquire a critical awareness of the role that different subjects and approaches can play in discussing keyglobal issues.
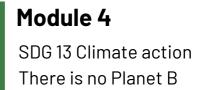

THE BIGPIC ONLINE COURSE

Module 1

SDG 4 Quality education

Module 2
